

Magnets & Magnetic Solutions

Magma Magnetic Technologies Ltd. has been at the forefront since 1979, leading the market in developing and supplying magnets and advanced magnetic solutions worldwide. With an engineering team boasting expertise and extensive experience, Magma excels in designing customized magnetic applications for all industries. We offer a range of permanent magnets and electromagnets tailored to meet our customers' specific needs.

MAGNETS FOR ALL INDUSTRIES

- **Serving diverse industries:** Automotive, biomedical, green energy, plastics, and more.
- **Our expertise:** Permanent Magnets, electromagnets, magnetic assemblies, magnetic application – design & development.

MAGNETIC ENGINEERING SERVICES

- **Magnetic Design & Consulting:** Our engineers guide you through the entire development process, from conception to production.
- **R&D Support:** We partner with you throughout R&D, offering expertise and comprehensive testing in our fully equipped lab.
- **Magnetic Simulation:** We utilize sophisticated software to precisely simulate magnetic behavior and ensure optimal performance.
- **Magnetic Laboratory Services:** Our state-of-the-art lab provides reliable data through extensive testing and measurements.

 **Magma - the right source for all your magnetic needs**

OUR ADVANTAGES:

- **Experience:** We offer an extensive experience and knowledge in all stages of development and production.
- **Technical expertise:** Our experts will help you choose the best magnetic solution for your needs.
- **Customized solutions:** We offer customized magnets and magnetic solutions for your application.
- **Fluent Supply:** Our inventory includes a diverse range of magnets, electromagnets and solenoids.
- **Magnetic Laboratory Services, Including Magnet quality testing and magnetic simulation.**
